## About Us

Alloy Metals International is a metal service center with a focus on serving customers in the Aerospace, Defense, Electronic, Forgings, Industrial, Medical and Petrochemical markets.

Our strengths lie not only in our extensive inventory, but with our knowledgeable sales staff. Please contact a member of our sales staff with any questions regarding your metal needs. We take pride in providing excellent customer service.

## Inventory

Our extensive inventory includes a wide array of aluminum, copper, high temperature alloys, nickel alloys, stainless steel, and titanium products.

Stocked shapes include hex bar, round bar, round corner square bar, plate, sheet, and tubing. Custom shapes are also available upon request.

Materials are prime, and certified to aerospace, federal, military, and /or industrial specifications.

## Quality

Our commitment to quality is evident in the way we do business. Operating to the ISO 9001-2000 standard we are dedicated to the continual

improvement of our quality system. Additionally, Alloy Metals International is a Pratt and Whitney LCS approved supplier, and a GE subcontractor. Maintaining quality processes and systems assures our customers of product traceability and reliability of service.

## Services

To better meet the needs of our customers, we offer a variety of value-added services, including:

- bar cutting
- centerless grinding
- deburring
- double disk grinding
- plasma cutting
- saw cutting
- slitting
- trepanning
- welding
- blanchard grinding
- cut-to-length
- deep hole drilling
- honing
- roll forming
- shearing
- threading
- waterjet cutting
- ultrasonic testing
