

Alloy Metals International

Snappy Materials

About Us

Alloy Metals International/Snappy Materials is a metal service center with a focus on serving customers in the Aerospace, Defense, Electronic, Forgings, Industrial, Medical, and Petrochemical markets.

Our strengths lie not only in our extensive inventory, but with our knowledgeable sales staff. We take pride in providing excellent customer service. With warehouse locations in Connecticut, Michigan, and Texas, in-stock products are available for immediate shipment.

Inventory

Our extensive inventory includes a wide array of aluminum, copper, high temperature alloys, nickel alloys, stainless steel, and titanium products. Stocked shapes include hex bar, round bar, round corner square bar, plate, sheet, and tubing. Materials are prime, and certified to aerospace, federal, military, and/or industrial specifications.

Quality

Our commitment to quality is evident in the way we do business. Snappy Materials is an ISO 9001:2000 registered company, with new procedures being implemented to meet the AS9120 standard. Alloy Metals International is a Pratt and Whitney LCS approved supplier and a GE subcontractor supplier. Maintaining Quality processes and systems assures our customers of product traceability and reliability of service.

Services

To better meet the needs of our customers, we offer a variety of value-added services, including:

- bar cutting
- blanchard grinding
- centerless grinding
- cut-to length
- deburring
- deep hole drilling
- double disk grinding
- honing
- plasma cutting
- roll forming
- saw cutting
- shearing
- slitting
- threading
- trepanning
- waterjet cutting
- welding
- ultrasonic testing
